Research Interests

I am a Ph.D. student at Duke University. My research interests focus on Bayesian deep learning, geometric deep learning, and their applications in natural language processing. Currently, I am working on disentangled text generation and time-evolving graph generation.

Education

| | |
|--|-----------------|
| Duke University <i>Ph.D. Student</i> , Electrical and Computer Engineering | 08/2017–Present |
| Tsinghua University <i>B.S.</i> , Mathematics and Statistics | 08/2013–07/2017 |

Experience

| | |
|---|--|
| Information Initiative at Duke (iiD) <i>Research Assistant</i> Bayesian deep learning, geometric deep learning, and their applications in natural language processing. | 08/2017–Present <i>Adviser: Lawrence Carin</i> |
| NEC Laboratories America, Inc. <i>Research Internship</i> Disentangled text generation learning from an information-theoretic perspective. | 05/2019–08/2019 <i>Adviser: Martin Renqiang Min</i> |
| Tsinghua Intelligent Vision Group (IVG) <i>Student Researcher</i> Deep metric learning for person re-identification based on sequential frames information. | 03/2016–07/2016 <i>Adviser: Jiwen Lu</i> |
| Student Research Program at Tsinghua <i>Student Researcher</i> Non-parametric k-sample tests with statistics based on local maximum energy distance. | 11/2015–05/2017 <i>Adviser: Xuegong Zhang</i> |
| Beijing Sogou Information Service Co., Ltd. <i>Research Internship</i> Polygonal line-like city road data smoothing via Spline Interpolation; road data compressing via Douglas-Peucker algorithm. | 08/2014–09/2014 <i>Mentor: Mao Wang</i> |

Publications

- **P. Cheng**, Y. Li, X. Zhang, L. Chen, D. Carlson, L. Carin, “Dynamic Embedding on Textual Networks via a Gaussian Process”, Under Review Submission to AAAI 2020

Academic Activities

- Conference reviewer/PC member for AAAI 2020 09/2019
- Teaching assistant for *Introduction to Deep Learning*, Instructor: Vahid Tarokh, Ph.D. 09/2019
- Oral Presentation at ACL 2019 07/2019
- Spotlight talk at NeurIPS 2019 Bayesian Deep Learning workshop 12/2018

Awards

- Fellowship of Electrical and Computer Engineering at Duke 08/2017
- First in Duke-Tsinghua Machine Learning Summer School (1/112) 08/2017
- Academic Excellence Award of Tsinghua University (top 30%) 10/2014
- Top 5 in the 18-th “Sogou Cup” Artificial Intelligence Programming Contest (5/200) 04/2014
- Silver medal in the 28-th Chinese Mathematical Olympiad (CMO) 01/2013
- First Prize in Chinese National Olympiad in Informatics in Provinces (NOIP) 11/2012

Technical Strengths

Computer Languages : Python (Tensorflow, Pytorch), R, C/C++

Software & Tools : LaTeX, Emacs, Mathematica, MATLAB, Excel, Markdown

Graduate Courses

Theoretical : Random Signals and Noise; Information Theory; Multivariate Statistical Analysis; Stochastic Processes; Compressed Sensing;

Engineering : Programming, Data Structure and Algorithms in C++; Pattern Recognition; Machine Learning; Text Data Analysis;
