Research Interests

I am a third-year Ph.D. student in the Department of Electric and Computer Engineering at Duke University. My research interests focus on Bayesian deep learning, geometric deep learning, interpretable machine learning and their applications in natural language processing, speech processing, and multi-modality.

Education

Duke University <i>Ph.D. Student, Electrical and Computer Engineering</i>	08/2017–Present
Tsinghua University <i>B.S., Mathematics and Statistics</i>	08/2013–07/2017

Experience

Information Initiative at Duke (iiD) <i>Research Assistant</i> Bayesian deep learning, geometric deep learning, and their applications in natural language processing.	08/2017–Present <i>Adviser: Lawrence Carin</i>
NEC Laboratories America, Inc. <i>Research Internship</i> Disentangled text generation learning from an information-theoretic perspective.	05/2019–08/2019 <i>Adviser: Martin Renqiang Min</i>
Tsinghua Intelligent Vision Group (IVG) <i>Student Researcher</i> Deep metric learning for person re-identification based on sequential frames information.	03/2016–07/2016 <i>Adviser: Jiwen Lu</i>
Student Research Program at Tsinghua <i>Student Researcher</i> Non-parametric k-sample tests with statistics based on local maximum energy distance.	11/2015–05/2017 <i>Adviser: Xuegong Zhang</i>
Beijing Sogou Information Service Co., Ltd. <i>Research Internship</i> Polygonal line-like city road data smoothing via Spline Interpolation; road data compressing via Douglas-Peucker algorithm.	08/2014–09/2014 <i>Mentor: Mao Wang</i>

Academic Activities

- o Conference reviewer/PC member for NeurIPS 2020 05/2020
- o Conference reviewer/PC member for ICML 2020 02/2020
- o Oral Presentation at AAAI 2020 02/2020
- o Teaching assistant for *Probabilistic Machine Learning*, Instructor: Sayan Mukherjee, Ph.D. 01/2020
- o Conference reviewer/PC member for AAAI 2020 09/2019
- o Teaching assistant for *Introduction to Deep Learning*, Instructor: Vahid Tarokh, Ph.D. 09/2019
- o Oral Presentation at ACL 2019 07/2019
- o Spotlight talk at NeurIPS 2019 Bayesian Deep Learning workshop 12/2018

Awards

- o Fellowship of Electrical and Computer Engineering at Duke 08/2017
- o First in Duke-Tsinghua Machine Learning Summer School (1/112) 08/2017
- o Academic Excellence Award of Tsinghua University (top 30%) 10/2014
- o Top 5 in the 18-th “Sogou Cup” Artificial Intelligence Programming Contest (5/200) 04/2014
- o Silver medal in the 28-th Chinese Mathematical Olympiad (CMO) 01/2013
- o First Prize in Chinese National Olympiad in Informatics in Provinces (NOIP) 11/2012

Technical Strengths

Computer Languages : Python (Tensorflow, Pytorch), R, C/C++

Software & Tools : LaTeX, Emacs, Mathematica, MATLAB, Excel, Markdown

Graduate Courses

Theoretical : Random Signals and Noise; Information Theory; Multivariate Statistical Analysis; Stochastic Processes; Compressed Sensing;

Engineering : Programming, Data Structure and Algorithms in C++; Pattern Recognition; Machine Learning; Text Data Analysis;
